Considering Task Requirements
The app is already running and verified from the earlier setup. This task also asks for durable run instructions, so I'll add a short replit.md entry for the existing Streamlit command, then propose two narrowly scoped follow-ups and mark setup complete.
5 actions
Marked task #1 (Set up the imported project) complete
Worked for 41 seconds
Free · No credits used
Checkpoint made 6 minutes ago
Ready for review
Set up the imported project
Set up Streamlit workbench Run workflow
Cancel
Mark as complete
